Quality Policy

Euro Chip Distribution S.r.l. bases its Quality Policy on the creation of strategic relationships, both nationally and internationally, supporting companies in the electronic components sector as both customers and suppliers.

To achieve and maintain high standards of excellence, we have implemented a Quality Management System (QMS) compliant with the UNI EN ISO 9001:2015 standard, designed to:

- **Maximize customer satisfaction** at every stage, from pre-supply to after-sales support.
- **Guarantee original and certified electronic components**, sourced directly or indirectly from official manufacturers.
- Apply the continuous improvement cycle: "**Plan, Do, Check, Improve**" across all business processes.
- Deliver **efficiency, speed, and transparency** in negotiations, minimizing lead times and ensuring punctual deliveries.

Our global network of suppliers and partners enables us to:

- Offer over 500,000 original products available within 48 hours.
- Provide competitive solutions with **reduced markups**, maximizing economic benefits for our clients.

We are committed to building long-lasting and reliable relationships through effective and responsible communication, delivering tailored solutions to meet every need.

The Management

EURO CHIP DISTRIBUTION S.R.L.
